STANDARD GUARANTEE

OF AMERICAN SHORTHORN BREEDING ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
6. All animals are sold to comply with the laws regulating tuberculosis and Bang's disease of the state or country into which they may be shipped.
7. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
8. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animals are bid off.

This bull was the champion at last spring's Western Shorthorn Ass'n sale for John Shuman & Sons, Byers, and is typical of the quality this firm consistently consigns. Shuman will be represented with three bulls.

Vern Harley, Sterling, with his reserve champion bull at the 1967 Spring Western Shorthorn Ass'n Sale. He sold for a conservative \$650. You can buy a lot of bull quality for your money in these Western sales.

COLUMBINE ACHIEVEMENT II—A good October 6th yearling from a good big cow and by an extra good Mathers-bred bull. He will be right to use in the spring. By Leveldale Achievement.

WHAT IS A GOOD SHORTHORN BULL WORTH?

What is a good Shorthorn or Polled Shorthorn commercial bull worth? Those of you who have had experience with Shorthorns know their superior profit making ability and have a figure in mind. For those of you who have not had experience with Shorthorns, we cite this story . . .

Ray Holder, Harrisonville, Mo., used a Shorthorn bull on 20 cows of another beef breed. He used a bull of the same breed as the cows on 20 others.

Nineteen crossbred calves resulted. These were developed the same way and on the same feed as his straight-bred calves. At the end of eight months, when sold, the crossbreds averaged 189 lbs. a head more than the straight-breds and sold for the same price. The heifers sold for \$20.00 per cwt. and the steers for \$23.00.

A little arithmetic shows that the Shorthorn bull added \$43.47 to the value of every steer calf and \$37.80 to each heifer calf. If ten of these were steers and nine heifers, the added return from using a Shorthorn bull was \$774.90 on just one calf crop of 19 head.

Good Shorthorn and Polled Shorthorn bulls will make you money. We have the profit-making kind in this sale.

A Colomeadow herd sire and the cows in the Ervin Olson herd, Longmont. Two sons of this bull will sell as unregistered bulls.

LOTS 24 & 25—BULLS

Two unregistered bulls being consigned by Ervin Olson, Longmont. Generally other uncataloged bulls and females, of which we have no prior information, arrive on sale morning to expand our sale numbers.

WHY USE SHORTHORN BULLS ?

John Catron, Camp Crook, South Dakota, turned a Shorthorn, a Polled Hereford, and an Angus bull with 120 cows. One hundred calves resulted. Catron did not guess — he weighed the calves.

THE BOX SCORE

Sire	No. Calves	Av. Weaning Weight	Total Pounds
Shorthorn	47	330 lbs.	15,510
Hereford	34	306 lbs.	10,404
Angus	24	313 lbs.	7,512

John Catron, just like you, Mr. Cattleman, was interested in production of total pounds of quality meat. That's why he now is convinced of the advantage and reliability of Shorthorns. You, too, can harvest this kind of a crop by using Shorthorns.

Mark Tracy, Boulder, Colo., with two of the good heifers in his herd. Mark, like many other junior breeders, has found that a Shorthorn project can not only be highly profitable but can be the basis for a lot of purple ribbons. Mark was a 1966 National 4-H Beef Winner with his Shorthorn projects.

Lots 72 through 95 are 1967 heifer calves suitable for 4-H and FFA projects or as foundation females for established herds. You'll like this fancy offering.
